

Year 2 Autumn 2 2018 Space

Home Learning

We love it when children bring in work they have done at home.

Handwriting

Can you wow your teacher with your handwriting?
Practice your handwriting at home and bring it in to show your class teacher. Are you forming letters properly? Are your letters all the correct size?

Reading

- Please change your books in the morning. You will find books in the quiet room between class 7 and 8.
- You should aim to change your book at least 3 times a week.

P.E.

Class 7 Tuesday and Thursday
Class 8 Tuesday and Thursday
Class 9 Tuesday and Thursday

Please make sure you have shorts and a t-shirt for indoor PE and warm kit for outside. **You also need PE shoes.**

If you have earrings please take them out or tape them.

Books

We love you to bring books into school to share with the rest of your class. Share a book and tell your class why you like it.

Space Facts

Can you draw a planet and research it?

Spelling Challenge

Practice writing your tricky words.
Can you learn your spellings and try to use them correctly in your writing?

* Please remember your
* water bottle each day.
* Drink whenever you
* are thirsty.

Ways in which you can support your child's learning in Autumn 2

Maths

We will be revisiting number bonds. We will also be looking at money and considering what coins can be used to make an amount, as well as solving addition and subtraction problems involving money. In addition to this, we will be learning about multiplication and division. Help at home by practising 2, 5 and 10 x tables.

English

We will be focusing on writing for different purposes. We will be focusing on ensuring that we are using the correct tense in our writing—past or present. We will continue to encourage the effective use of a wide range of punctuation in our writing. There will be a focus on spelling common exception and high frequency words correctly in the written work that we do. We will be looking at poetry and writing about traditional tales as well as writing factual information relating to our school trip and also space.

History

We will be learning about some significant people in history. We will learn about Neil Armstrong and Tim Peake. When we are learning about structures in DT, we will find out about Brunel.

DT

We will be learning about structures. We will focus on bridges and the materials used to ensure they are fit for purpose. We will make our own bridges, exploring different joining and strengthening techniques.

Science

We will be finding out all about Space. How many planets can you name? What do they look like? What are they made of? What causes day and night?

Computing

Continue to talk to your child about e-safety. Discuss with them the importance of not sharing information online.

R.E.

We will be considering 'angels' and will be learning about them in the context of the Christmas Story.
